Education

Roorkee Institute of Technology (Roorkee, India)
Bachelor of Technology, Computer Science, 2025
C.G.P.A -6.3

Profile

A passionate and detail-oriented software engineer with hands-on experience in developing web applications using MERN stack, Node.js, and ReactJS. Eager to apply my knowledge and technical skills to real-world challenges and contribute to dynamic software development teams.

Relevant Coursework

- Data Structures
- Database Management
- Software Engineering
- Operating System
- Algorithms
- Data Analytics

Projects

Twitter Clone (*MERN Stack*)

- **User Authentication & Authorization:** Implemented secure user registration and login functionality using JWT (JSON Web Tokens) and bcrypt for password hashing.
- **Functionality:** Enabled users to create, edit, and delete tweets, with support for character limits, hashtags, and mentions with a real-time notification system to alert users of new followers, likes, and retweets.

Simon Game (*HTML, CSS, Java Script*)

- Developed an interactive Simon game using HTML, CSS, and JavaScript.
- The game challenges users to replicate an increasingly complex sequence of colours and sounds generated by the computer. Each round adds a new step to the sequence, requiring players to maintain focus and improve their memory skills.

Skills

- **Communication** : I am fluent in English and Hindi.
- **Technical Skill** : Python, C, GIT, JavaScript, HTML, CSS, NodeJS, MongoDB, React, Data Structure and Algorithms.
- **Certificate's** : **IIT Bombay Spoken Tutorials-** JavaScript and C. **Certiport** - Python.

Hobbies

In my own time I love to know more about watches and keep updated in the community.
